

Warrawong High School

Works notification | 18 June 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We have begun the re-configuring of the school library and administration buildings at Warrawong High School that we notified you of on [22 April 2026](#).

During routine cleaning of a science storeroom in Building A, a cleaner found 4 packages wrapped in builder's plastic.

The room was locked and an independent hygienist inspected the packages and confirmed they contained bonded asbestos.

For more information about asbestos please visit the NSW Health website or scan the QR code.

The packages were removed and the independent hygienist completed an inspection alongside air monitoring of the storeroom as a precaution.

All air monitoring to date across the site has returned results below the minimum detectable limit, which means it is consistent with acceptable levels in ambient air (i.e. <0.01 fibres/mL) as per SafeWork NSW guidelines.

All work was done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures were in place while work was done. All work was completed by licensed asbestos contractors and inspected by independent hygienists.

The independent hygienist issued a clearance certificate before the room was reopened.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.
