

Warrawong High School

Works notification | 2 April 2024

Dear staff and parents/carers,

On Monday 25 March 2024, mould was detected in two science labs and the library at Warrawong High School. As a precautionary measure students and staff were relocated to other classrooms so we could investigate the mould and the library was locked and made inaccessible.

We engaged an independent hygienist to assist with our investigations. On Tuesday 26 March 2024, cleaning and air monitoring in the impacted areas started as part of these investigations.

Students and staff will continue learning and teaching in their relocated classrooms until all work is complete.

All inspections and remediation works are conducted in accordance with recommendations from the independent hygienist.

The rooms and library will be inspected by an independent hygienist to confirm they have been fully remediated, and the school will receive a clearance certificate before they are reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
