

# Galston High School

## Works notification | 16 March 2023

Dear staff and parents/carers,

On Tuesday 14 March, during routine inspections at Galston High School, suspected asbestos containing material was found in cement sheeting located inside the old shed behind the library.

The shed is not currently being used by the school and is inaccessible to students and staff.

Work to remove the material will take place on Saturday 18 March 2023. All works involving asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before works start.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The area will be inspected by an independent hygienist to confirm it has been fully remediated and the school will receive a clearance certificate.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
