

Ulladulla High School

Works notification | 12 June 2025

Dear staff, parents and carers,

During preparation work in the science laboratory chemical store on Tuesday 3 June 2025 at Ulladulla High School, a member of staff dropped a chemical and required medical assistance.

The chemical store was locked and Fire and Rescue NSW attended the school to clean up the chemical.

The staff member is recovering at home.

An independent hygienist completed air monitoring on Tuesday 10 June 2025.

The hygienist will advise when the room can be reopened once air monitoring results have been received.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
