

NSW Department of Education

## Muirfield High School

Works notification | 3 June 2024

Dear staff, parents/carers,

We are continuing to manage known in-ground asbestos at Muirfield High School.

As part of this work, we will conduct soil testing and sampling on Saturday mornings between 7 June and 28 June 2024.

Testing will take place in the Year 7 courtyard and the grassed area of the school bordering Barclay Road.

All work will be done outside of school hours, in accordance with work, health, and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures, including air monitoring, will be in place while work is being done. All work will be completed by licensed and accredited asbestos contractors and monitored by independent hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

Our highest priority is the health, safety, and well-being of the school and the local community. We will keep the community updated.

Thank you for your cooperation during this important work.
