

# Muirfield High School

Works notification | 17 November 2023

Dear staff and parents/carers,

During repair works on underground pipes at Muirfield High School on Thursday 16 November, asbestos containing material was found.

The area is cordoned off within a construction site and separated by fencing and the gate has been locked to keep students, staff and visitors separate.

Work to remove the asbestos containing material will take place from Saturday 25 November until Sunday 3 December. All work involving asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The area will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before either room is reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
