

# Muirfield High School

## School holiday works notification – Winter 2026

Dear staff, parents, carers and neighbours,

School holidays are the ideal time to undertake maintenance and project work across the state without disrupting learning.

### Planned work over the upcoming holidays

We will be working on the grounds at the front of Muirfield High School, assumed to contain bonded asbestos as listed on the School Asbestos Management Plan.

We will dig up and dispose of soil containing bonded asbestos fragments, apply a protective layer of geo-fabric over the remaining soil and lay fresh turf on top.

This will happen in the period from the end of the school day on Friday 3 July 2026 up to the first day of Term 3 Tuesday 21 July 2026. The intended dates of work, weather permitting, are:

- Friday 3 July – site establishment and setting up a secure construction area
- Saturday 4 and Sunday 5 July – removal of assumed asbestos containing materials
- Monday 6 July until Friday 17 July – landscaping refurbishment works

There may be some low-level noise during these activities. We will minimise disruptions where possible.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. An independent hygienist will oversee the removal, conduct air monitoring and provide a clearance certificate before the area is reopened.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding during this important work.

For more information about asbestos please visit the [NSW Health website](#) or scan the QR code.
