

# Callaghan College Waratah Campus

Works notification | 9 February 2024

Dear staff and parents/carers,

We are replacing an eave sheet in an outdoor walkway located between the Library and Canteen at Callaghan College Waratah Campus. This material is known to contain asbestos as per the school's asbestos register.

The walkway has continued to be used as the asbestos containing material had been secured and encapsulated.

Work to remove the eave sheets is scheduled for Saturday 10 February 2024.

All work involving asbestos containing materials will take place outside of school hours, with additional safety measures and air monitoring in place before the work starts.

Work will be done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The contractor will receive a clearance certificate from the independent hygienist after the removal of asbestos containing material in order to continue maintenance work on the walkway eaves.

The health, safety, and wellbeing of the school and local community is our highest priority, and we will continue to keep the community updated.

Thank you for your cooperation during this important work.
