

Callaghan College Waratah Campus

Works notification | 14 December 2022

Dear staff and parents/carers,

Upcoming planned maintenance works to replace the roof to Block G and L at Callaghan College Waratah Campus will involve working with lead within the roof cavity and asbestos containing material within the eaves.

Air monitoring has been installed and confirms the buildings are currently safe for staff, students and visitors to occupy.

Work will take place during the upcoming school holidays between Tuesday 20 December 2022 and Friday 20 January 2023.

Before works begin, the area will be fenced off and safety measures and monitoring will be put in place. The area will remain out of bounds until the removal and associated maintenance work is completed.

This area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
