

Newcastle High School

Works notification | 26 September 2025

Dear staff and parents/carers,

On Thursday 25 September 2025, a gas leak was detected by staff in Block C at Newcastle High School.

The area was isolated and students and staff were evacuated from the school immediately as a precaution. Qualified and licenced gas repair professionals were called and immediately turned off the gas lines.

The leak point has now been capped and contained, and the gas going into Block C will remain off. Block C has been declared safe by the gas repair professionals and is now open for use. Repairs will commence in the school holidays while students and staff are offsite.

The rest of the school has been declared safe.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
