

Brisbane Water Secondary College Umina Campus.

Works notification | 27 May 2025

Dear staff, parents and carers,

We will be replacing the roof in the Science Block (Building S3) at Brisbane Water Secondary College Umina Campus.

The roof replacement involves the remediation of secured lead material in the roof cavity. As this material is undisturbed the building has remained safely in use.

This work has been scheduled to be completed over the long weekend between Saturday 7 June until Monday 9 June 2025.

All work will be done in accordance with work, health and safety laws. All work will be completed by licensed contractors and inspected by independent hygienists.

Safety measures, including air monitoring will be in place while this work is being done.

Following this work the building will be inspected by independent hygienists and a clearance certificate will be issued before the building is reopened.

For information on environmental and health impacts of lead, see the webpage from the [Australian Government Department of Climate Change, the Environment and Water](#).

For more information about managing lead in the Lake Macquarie region please visit [the EPA website](#).

If you have any questions about the work, please contact us on the details below.

The health, safety and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
