

# Gorokan High School

## Works notification

3 November 2022

Dear staff and parents/carers,

Upcoming planned maintenance works at Gorokan High School to replace an air conditioner will involve working with asbestos containing material in a demountable currently used as a support classroom.

Work will take place on Saturday 12 November 2022. All asbestos containing material will be removed outside of school hours.

The area will be cordoned off before works start, and additional safety measures and monitoring put in place. It will remain out of bounds to students and staff until the removal and associated maintenance work is completed.

This area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
