

Peel High School

Works notification | 2 September 2026

Dear staff, parents and carers,

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

As part of planned maintenance, the department will be refurbishing the existing male and female staff toilet facilities in Building 3 at Peel High School. Before the refurbishment works can start, the existing ceilings and toilet partition systems will be removed. As part of this, bonded asbestos-containing materials associated with these building elements will be removed by a licensed asbestos removal contractor.

This area is identified on the school's Asbestos Management Plan (SAMP) as containing asbestos.

All work involving asbestos-containing materials will take place outside of school hours, on Tuesday 8 September 2026 between 4 pm and 6 pm, in line with NSW Environment Protection Authority guidelines. Safety measures including personal protective equipment (PPE), air monitoring and temporary fencing will be in place throughout.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and under the supervision of independent hygienists.

If you have any questions about this matter, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support.
