

Toormina High School

Project update | June 2026

Dear staff, parents, carers and neighbours,

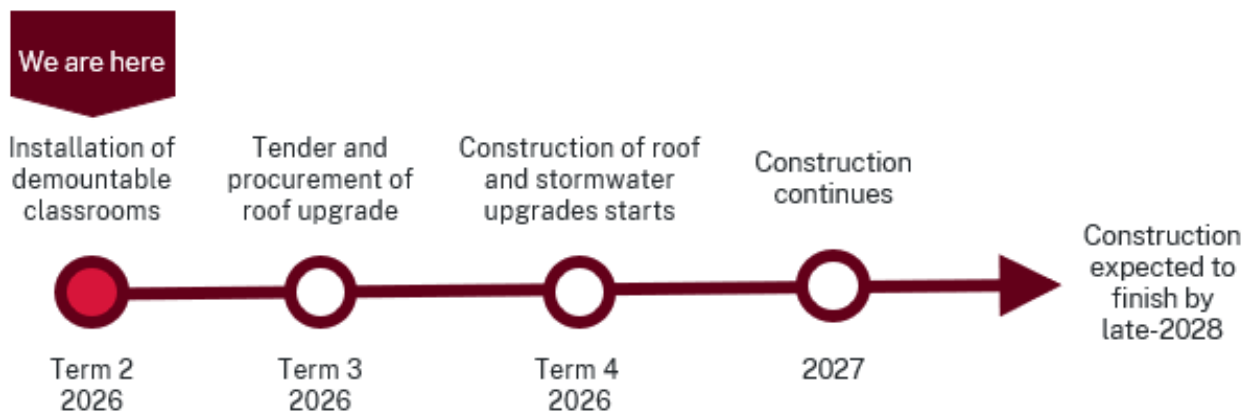

We are writing to inform you of the progress of the roof replacement project at Toormina High School.

This update is part of [regular communications](#) with details about what we are doing, when we are doing it and how we are minimising disruption on school operations.

Term 2 update

As [shared previously](#), more than 20 demountable classrooms are being installed alongside the western and southern sides of the school oval to make sure school operations continue uninterrupted throughout the project. The demountable installation is underway on the oval and their installations will be continuing over the winter school holidays.

Project timeline

Upcoming winter school holiday works

From the end of the school day on Friday 3 July 2026 up to the first day of Term 3 on Tuesday 21 July 2026, we will be undertaking significant construction works on building AG (Agriculture Science rooms) to remove roofing, ceilings, wall panels and fixtures.

Construction is expected to commence in the first building in late Term 4 2026. Before this, staff and students in that building will relocate to the demountables, returning once the building has been completed and independently cleared.

The project is expected to be complete by late 2028, subject to contract finalisation, weather and site conditions.

Managing construction impacts

The school will continue to play a central role in making decisions throughout the process and will continue to guide each step moving forward. All work will be carried out in consultation with school leadership to ensure there is no disturbance to students sitting their HSC exams.

During the work, including provisioning such as plumbing and electrical works for the demountable installations, there will be construction noise due to the use of heavy machinery. Some noise and traffic disruption may be experienced in the vicinity of the school and neighbouring properties. For more information about how we manage construction impacts, please visit our [webpage](#) or scan the QR code.

Working hours

All site works will be undertaken in accordance with departmental and school operating constraints and procedures. Working hours will be confirmed once the contract is awarded and will be communicated before works begin. All works will be undertaken in accordance with NSW Environment Protection Authority guidelines.

Keeping you informed

We will keep you updated throughout this project.

If you have questions about this work, please contact us on the details below.

Thank you for your cooperation while we deliver this important project for the Toormina High School community.
