

Terrigal High School

School holiday works notification - Summer | 2024/25

We regularly inspect and maintain schools to ensure the safety and wellbeing of our school communities.

The school holidays are the ideal time for a lot of maintenance and project work to take place across the state without disrupting learning.

Planned work over the Summer School Holidays

We will be doing work at your school during the Summer School Holidays. This period may include from the end of the school day on Friday 20 December 2024 up to the first day of Term 1, Friday 31 January 2025.

This work will include replacing the Building B roof and the remediation and removal of lead dust within the roof cavity.

All work will be done in accordance with work, health and safety laws. All work will be completed by licensed contractors and monitored by an independent hygienist.

The building will be inspected by the independent hygienist and clearance will be issued before the building is reopened.

Cleaning updates – Buildings A and C

Further to the [14 October 2024 works notification](#), we would like to advise that regular environmental cleaning is taking place each term in Buildings A and C.

Licensed contractors have been thoroughly cleaning the top floor rooms, including windowsills, door frames, fans, and other places where dust may settle, on the advice of an independent hygienist.

Regular fortnightly air monitoring is being conducted within these buildings until the end of Term 4 2024 as advised by the independent hygienist.

All air monitoring results to date have returned results below the minimum detectable limit, which means it is consistent with acceptable levels in ambient air as per SafeWork NSW guidelines.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
