

# Terrigal High School

## Works notification | 18 May 2026

Dear staff, parents and carers,

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

On Wednesday 13 May 2026 mould was identified in a Building A storeroom at Terrigal High School.

As a precaution, access to the storeroom was restricted until an environmental clean could be conducted on Friday 15 May 2026.

All work involving mould was done in accordance with work, health and safety laws. All work was completed by experienced contractors.

NSW Health advises that mould spores are present virtually everywhere, both indoors and outdoors, and mould is part of a group of very common organisms called fungi that also include mushrooms and yeast.

Further information can be found on the [NSW Health Mould Fact sheet](#).

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.

### What makes Terrigal High School special?

Terrigal High School values strong partnerships with families and the wider community that create a positive and inclusive environment where students are supported to pursue their interests, develop their talents and contribute positively to school life.
