

Terrigal High School

Works notification | 26 October 2023

Dear staff and parents/carers,

We will be refurbishing the bathrooms and change rooms in the north end of Building C at Terrigal High School. As part of this work, we need to remove toilet cubicle partitions and change room partitions, which are known to contain asbestos material as per the school's asbestos register.

The bathrooms will continue to be used until the refurbishment work starts as the partitions are in good condition and the material is undisturbed.

Work to remove the partitions will take place outside of school hours, on 20 and 21 November 2023.

Before work starts, the bathrooms will be cordoned off as a construction site for the refurbishment work. Additional safety measures and air monitoring will be put in place during the removal of asbestos containing material.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The bathrooms will be inspected by an independent hygienist and the contractor will receive a clearance certificate before work on the refurbishment continues. The refurbished bathrooms are expected to be ready for use in early 2024.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
