

Narooma High School

Works notification | 7 March 2025

Dear staff, parents and carers,

As part of planned maintenance, we are upgrading the Building A student toilets at Narooma High School.

The upgrades include:

- new tiling
- new toilets
- new sink ware
- new toilet partitions.

Access will be restricted until upgrades are completed, which is scheduled to be Friday 14 March.

Alternative student toilet facilities are available across the school site.

As part of this work, we removed known bonded asbestos from within the toilet partitions and ceiling linings outside school hours yesterday (Thursday 6 March).

NSW Health explains that “living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged”.

All work was completed by licensed asbestos contractors and monitored by independent hygienists in accordance with work health and safety laws and the NSW Department of Education’s Asbestos Management Plan.

Safety measures, including air monitoring, were in place while work was being done.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
