

Dubbo College Delroy Campus

Works notification | 14 May 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

As part of our proactive maintenance schedule, we are undertaking the following works at Dubbo College Delroy Campus:

- replacing the floor coverings to the external access areas in Building C and in Building F
- replacing the floor coverings in the cleaners storage room in Building D
- replacing the beading around the window frames to the external access doors in Building G.

These areas are known to contain bonded asbestos as listed on the School's Asbestos Management Plan.

Asbestos was used widely in Australian building materials before 1990. We manage the presence of asbestos in NSW public schools by maintaining an Asbestos Management Plan for each school and engaging independent hygienists for expert advice.

All work involving asbestos containing materials will take place outside of school hours between 7 am to 5 pm on Saturday 16 May 2026 and Sunday 17 May 2026, with safety measures such as PPE and air monitoring in place.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will take place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

For more information about asbestos, please visit the [NSW Health website](#) or scan the QR code.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.
