

Fairfield High School

Works notification | 6 November 2023

Dear staff and parents/carers,

We are extending the roofs of 4 buildings at Fairfield High School. Work is taking place in Blocks H, S, T and V, and will involve working with asbestos containing material in the eaves of the roofs in each block.

Work to remove the eaves and extend each roof will take place from Saturday 18 November 2023 until Wednesday 31 January 2024. All work involving asbestos containing materials will take place outside of school hours, including weekends and the holiday period. Additional safety measures and monitoring will be in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The roofs will be inspected by an independent hygienist to confirm they have been fully remediated, and the school will receive a clearance certificate when complete.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
