### To our community

Thank you for your patience while we delivered the drainage improvement project at Tuggerah Lakes Secondary College, Berkeley Vale Campus. This project has successfully improved drainage in the assembly area, resolving ongoing water leaks and flooding caused by heavy rain around buildings E, F, and G.

Landscaping works included a new outdoor seating area near buildings E and G for students to enjoy the school's green spaces. This improved outdoor area not only enhances our school's facilities but also provides a welcoming space for students to connect with each other while enjoying the fresh air and natural surroundings.

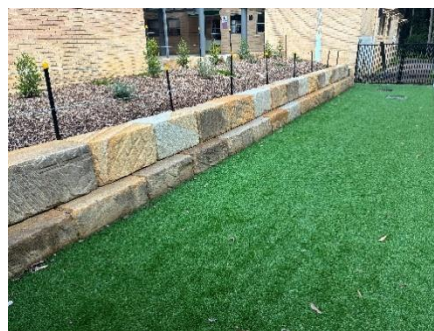

The project delivered:

improved outdoor drainage and stormwater management

outdoor seating areas and landscaping upgrades

Your support and cooperation made it possible for us to deliver these new facilities for students and staff.
