

New hall construction at the Northern Beaches Secondary College Manly Campus

## Northern Beaches Secondary College Manly Campus upgrade

Project update | 14 December 2022

### Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy

### Progress summary

Significant progress has been made by our contractors over the last few weeks and the new school hall is on its way to completion. The framing of internal and external walls (including brickwork, cladding and window-installation) has been finalised, and solar panels have been installed on the roof.

### Next steps

Over the summer holidays, building works will continue to ensure strong progress continues. We anticipate that by the end of January 2023, the following will have been actioned:

- Sewer replacement works completed (see below)
- Bathrooms waterproofed
- Tiling works started
- Electrical distribution board installed and commissioned
- Services fit-off to gymnasium
- Hot Water Heater installed and commissioned
- Timber Sprung Floor installed including sealing, line marking, logo and curing.

## NSW Department of Education – School Infrastructure

In January 2022, the contractors will start building the raised pathway (designed to avoid disturbing the roots of the mature trees around the hall), which will connect the hall to the rest of the school.

The final landscaping and compliance checks will also begin, with construction on track to be completed by mid-March 2023.

We will continue to keep the community updated on progress and look forward to welcoming students and parents to your impressive new hall next year.

### Keep informed

All information about the project can be found in the School Infrastructure NSW website for Northern Beaches Secondary College Manly Campus.

<https://www.schoolinfrastructure.nsw.gov.au/schools/8/8567.html>

### Important Works Notification

As you might be aware, recent investigation into a section of the school's sewer system found that due to age, it needed to be replaced.

Repair works to the sewer system started on Monday 5 December, and we thank students and staff for their patience and cooperation over the last fortnight as work has been carried out.

The repair works will be completed over the holiday period, to ensure minimal disruption for the return to school in 2023.

If you have any queries or concerns about this project, you can contact School Infrastructure NSW during business hours on 1300 482 651. School Infrastructure NSW will be closed from 5pm Friday 23 December 2022 to 9am Monday 9 January 2023, inclusive, in line with the NSW Government shut down period. During this time, if there is an urgent issue please contact the site manager listed on the construction site entry. In an emergency, please call triple zero (000).

We thank you once again for your continued support.

For a **Translation and Interpreting Service**, call **131 450** and ask them to call the Department of Education - School Infrastructure NSW on **1300 482 651**.
