Cherrybrook Technology High School

Project update | September 2023

Investing in our schools

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

A project is underway at Cherrybrook Technology High School to build new Science Technology Engineering and Mathematics (STEM) facilities (Building M) including a covered walkway link to the existing Building G. The new building will be in the southern part of the school site.

The new building will provide 4 general learning spaces, 2 science laboratories, 1 shared science preparation room, 2 STEM rooms, 1 shared STEM equipment room, 1 building communications room, accessible amenities, and a lift.

Progress summary

Since the last project update distributed in June 2023, we have completed installing the building structure including:

- erecting structural steel
- installing ground floor brickwork
- installing termite protection measures

Next steps

During the upcoming spring school holidays work will include:

- installation of external and internal door frames and doors
- external painting
- internal wall and ceiling framing
- installation of internal services
- roof and solar panels installation
- construction of concrete stairs

Managing construction impacts

Construction work hours will be from 7 am to 6 pm Monday to Friday and 8 am to 1 pm on Saturdays. No work will take place on Sundays or public holidays unless otherwise notified. School Infrastructure NSW will work closely with the school to minimise any disruption to students and staff during construction. This may mean conducting portions of work during weekends or school holiday periods or exploring options to lessen the impacts of construction on school operations and student learning.

For more information about how we manage construction impacts, please visit our managing construction impacts webpage at <http://edu.nsw.link/ConstructionImpacts>

Staying informed

School Infrastructure NSW will continue to share construction updates and project information as the project progresses. We will continue to keep the local community and Cherrybrook Technology High School community informed through project updates, works notifications and website updates.

If you have any queries or concerns about this project, you can contact School Infrastructure NSW during business hours on the contact details below.
