

# Cherrybrook Technology High School

Works notification | 11 January 2023

A project is underway at Cherrybrook Technology High School to build new Science Technology Engineering and Mathematics (STEM) facilities (Building M).

## Site establishment starting 16 January 2023

From Monday 16 January 2023, works will start to establish the construction site at Cherrybrook Technology High School. This includes setting up the site office and amenities in the school carpark near Block G and fencing around the perimeter of the work site.

The main vehicle entrance for construction traffic will be through the existing staff carpark via the entrance on Purchase Road.

Please see the map overleaf for an indicative site map.

Construction work hours will be 7 am to 6 pm Monday to Friday and 8 am to 1 pm on Saturdays. No work will take place on Sundays or public holidays unless otherwise notified.

School Infrastructure NSW will work closely with the school to minimise any disruption to students and staff during construction. This may mean conducting portions of work during weekends or school holiday periods or exploring options to lessen the impacts of construction on school operations and student learning.

## Staying informed

If you have any questions or feedback about this project you can contact School Infrastructure NSW on [schoolinfrastructure@det.nsw.edu.au](mailto:schoolinfrastructure@det.nsw.edu.au) or during business hours on 1300 482 651.

School Infrastructure NSW will continue to keep the Cherrybrook Technology High School community and local residents informed and share construction updates and project information as the project progresses.

Thank you for your cooperation during this important work.
