

Georges River College Hurstville Campus

Works notification | 2 June 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Recently we conducted investigations into the functionality of the lifts at Georges River College Hurstville Campus. These tests revealed minor works are needed on the lifts in buildings A and II.

Out of an abundance of caution, access to these lifts has been restricted from **Monday 1 June 2026** until repairs can take place.

We are working closely with contractors to schedule the work as soon as possible. We are committed to minimising disruptions where possible and will coordinate this work with school leadership to avoid any interruption to lessons.

Alternative temporary classrooms and other designated spaces in the school will be available to affected staff and students while the lifts are unavailable. Please follow the direction of signage during this time.

We will continue to keep the community informed as these works progress.

If you have any questions about this, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support.
