

Hunter School of Performing Arts

Works notification | 28 February 2023

Dear staff and parents/carers,

Planned maintenance works took place over the weekend at Hunter School of Performing Arts to install ground monitoring wells at the back of the Theatre Building. This work involves the installation of water table monitors using narrow bore holes.

During the works a member of the contractor team sustained an injury and therefore the work was stopped. The work area, which includes a small 20cm wide borehole in the artificial turf, has been cordoned off with bollards and danger tape to keep students, staff, and school visitors separate.

The contractor is complying with all Safework guidelines and advice. Works will remain paused until a review is completed.

The area will remain out of bounds to students and staff until the maintenance work is finished.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
