

Hunter School of Performing Arts

Works notification | 8 June 2023

Dear staff and parents/carers,

Further to the notification dated 29 May 2023, work to remove asbestos containing vinyl tiles in the science lab in Building F as part of the science lab upgrade were successfully completed on Thursday 1 June 2023, outside school hours.

A small portion of vinyl tiles were also removed from the clerical office in Building H to allow for the installation of a kitchenette.

Work was done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The science lab and clerical office were inspected to ensure they have been fully remediated, and the contractors received a clearance certificate before the upgrade work could continue. The science lab remains out of bounds while work is underway.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
