

# Northern Beaches Secondary College Balgowlah Boys Campus Project update | July 2025

Image caption: generic music room

## Investing in our schools

The Balgowlah Boys Campus, Northern Beaches Secondary College and its community are funding 3 facility upgrades at the school.

### Project overview

Balgowlah Boys is receiving enhancements and upgrades to its facilities, including:

- gymnasium sound baffling installation
- new shade sail
- music room refurbishment.

### Progress summary

#### Gymnasium sound baffling installation

Acoustic panels will be installed on the gymnasium ceiling to reduce noise.

The contract is currently being finalised, after which procurement will begin.

#### New shade sail

We are also planning for a new shade sail which will provide additional outdoor shelter from the sun and rain.

#### Music room refurbishment

The music room will receive an upgrade including the removal of internal walls and the relocation of the sound booth to provide better use of space. Vents and exhaust fans will be installed to improve air flow and overall ventilation.

Overall, the planned refurbishment works will transform the music room into a more comfortable environment for student and teacher use.

## Next steps

The contract for the gymnasium sound project is expected to be awarded later in Term 3. Works are expected to be completed later this year, depending on contractor availability, materials and site conditions.

The shade sail and music room refurbishment projects are still being scoped. We will keep the community updated and provide more information as it becomes available.

## More information

If you have any questions about this project, please contact the NSW Department of Education during business hours on the details below.
