

James Cook Boys Technology High School

Works notification | 17 July 2023

Dear staff and parents/carers,

In preparation to convert an unused storage space in Building D to a Food Technology classroom at James Cook Boys Technology High School, lead-based paint on the internal roof framework will need to be removed.

The area is currently cordoned off within a construction site. Additional safety measures and monitoring will be put in place before works start.

Work to remove the lead-based paint will take place outside of school hours between Monday 31 July and Saturday 12 August 2023.

Work will be done in accordance with SafeWork NSW regulations. All work will be completed in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The area will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before work can continue in the area.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
