

James Cook Boys High School

Works notification | 1 December 2023

School Infrastructure NSW regularly inspects and maintains schools to ensure the safety and wellbeing of our school communities.

Planned work at some schools may involve working with hazardous materials such as asbestos or lead containing material. This may include remediation or removal of material, or sampling. This notification is to let you know about work taking place at your school involving these materials.

Work continuing on building maintenance

We will be doing maintenance work at your school **on Saturday, 16 December 2023**.

We are replacing the roof and window sun protection on Building E. As part of this work, asbestos containing roofing sheets will need to be removed and we will be working with asbestos containing material in the windows.

Work will be done in accordance with SafeWork NSW. All work will be completed by licensed and accredited contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

When the remediation work is finished, the areas will be inspected, and the school will receive a clearance certificate before the building is reopened for next term.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.

If you have any questions, please contact us on the details below.
