

# Cardiff High School

## School holiday works notification – Autumn | 2025

Dear staff, parents, and carers,

Following a recent inspection for the asbestos resurvey program, we will be repairing a ceiling sheet in a locked electrical distribution cupboard in the Science Building at Cardiff High School. We will also be removing wall partitions in a changeroom in the hall (Building G).

The materials in these areas are known to contain bonded asbestos as listed on the school's asbestos register.

NSW Health explains that 'living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged.'

Following the inspection by an independent hygienist the changeroom has been isolated from students and staff until works can be completed.

### Planned work over the Autumn School Holidays

The school holidays are the ideal time to complete maintenance and project work across the state without disrupting learning.

Work to remove the wall partitions and repair the ceiling panel has been scheduled to take place during the Autumn School Holidays – from the end of the school day on Friday 11 April up to Day 1 Term 2 (Wednesday 30 April).

During the removal and repair works there will be air monitoring, temporary fencing, signage and workers wearing personal protective equipment at the school.

Once the work is completed the independent hygienist will provide clearance to reopen the changeroom for Term 2 2025.

### Asbestos resurvey program

We are undertaking proactive sampling across the state as part of a program to identify any materials that may contain asbestos material. On completion of the program, the department's asbestos registers will be updated to reflect any changes. This initiative is part of our ongoing commitment to providing safe school facilities across NSW.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and inspected by an independent hygienist.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities. If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
