

Oak Flats High School

Works notification

8 November 2022

Upcoming works to replace the carpet in Block E at Oak Flats High School, will involve working with assumed asbestos containing material in the vinyl tiles underneath the existing carpet in two classrooms. As a precaution, the area is cordoned off to keep students, staff and visitors safe.

We are following all the advice and protocols of asbestos removalists, assessors and other experts.

Work will take place between Wednesday 9 November and Thursday 10 November 2022. Work will begin on in the afternoons once the school has been vacated. All asbestos containing material will be removed outside of school hours and in accordance with the advice of the independent hygienist.

Safety measures and monitoring will be put in place before works start. The area will remain out of bounds to students and staff until the removal and associated work is completed.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure the area has been fully remediated. The construction contractor will receive a clearance certificate, following remediation.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
