Toronto High School

Works notification | 1 July 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

On Monday 29 June 2026, a wall panel was damaged in the physical education staffroom in Building E at Toronto High School. This area is known to contain bonded asbestos as listed on the School Asbestos Management Plan (SAMP).

Access to this room was immediately restricted and an independent hygienist was engaged to undertake testing, conduct air monitoring and provide advice.

All air monitoring to date across the site has returned results below the minimum detectable limit, which means it is consistent with acceptable levels in ambient air (i.e. <0.01 fibres/mL) as per SafeWork NSW guidelines. These results show that there is not a detectable level of asbestos fibres in the air in this area.

Work to seal any gaps in the wall will take place outside of school hours on Wednesday 1 July 2026. The hygienist will return to inspect the site and provide clearance for normal activities from Thursday 2 July 2026.

All work will be done in accordance with work, health and safety laws. All work will be completed by experienced contractors and inspected by independent hygienists.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.
