

# NSW Public Schools

## School holiday works notification - Winter | July 2024

We regularly inspect and maintain schools to ensure the safety and wellbeing of our school communities.

The school holidays are the ideal time for a lot of maintenance and project work to take place in schools across the state without disrupting learning.

Planned work over the school holidays at some schools may involve working with hazardous materials such as asbestos or lead containing material. This may include remediation or removal of material, or sampling. This notification is to let you know about work taking place at your school involving these materials.

### Planned work over the Winter School Holidays

We will be doing work involving hazardous materials at your school **during the Winter School Holidays**. This period may include **from the end of the school day on Friday 5 July 2024 up to the first day of Term 3 for staff on Monday 22 July 2024**.

For more information about the type of work and location within your school grounds, see the listing for your school on our website: <https://edu.nsw.link/HolidayWork>.

All work involving asbestos-containing materials will take place outside of school hours.

All work will be done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan where applicable. Safety measures will be in place while work is being done. All work will be completed by licensed and accredited contractors and monitored by independent hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
