

An example of flexible a learning space

Blakebrook Public School

Community Information Session Invitation | October 2023

October 2023

Dear parents and carers

A project is underway to rebuild Blakebrook Public School after it was damaged by floods in early 2022. The project will deliver new modern and flexible learning environments and core facilities that will support the long-term needs of the local community.

Current Status

- The project has completed the master planning and concept design phase.
- The Project Reference Group (PRG) which includes the Principal, DEL, and school representative, are meeting regularly to discuss the design process.

Next Steps

- Hold an information session so that the school community can review the plans.

Information Session Details:

Date: 26 October 2023

Time: Between 4.30pm to 6pm

Location: Blakebrook Public School

School Infrastructure NSW (SINSW) will continue to keep the community up to date with project updates, works notifications and information sessions, at each critical phase of the development.
