

Crabbes Creek Public School

Works notification

August 8, 2022

School Infrastructure NSW and Public Works are managing the repair and remediation of buildings and grounds at Crabbes Creek Public School that were damaged by flood waters in March 2022.

Site building delivery

To allow the next stage of works to begin, temporary contractor buildings will be delivered to Crabbes Creek Public School on Monday, August 15.

The delivery is scheduled to take place between 9.30pm and 2pm. Traffic management will be in place while the buildings are being delivered.

Mould remediation.

From Tuesday, August 16, contractors will begin mould remediation work in flood-damaged buildings at Crabbes Creek Public School.

Specialists will be carrying out mould remediation inside our flood damaged buildings and will be wearing the protective equipment recommended by the occupational hygienist who has assessed the school site.

The work will include treating mould in the classrooms and administration area and removing mould contaminated material, including furniture and wall linings.

There will be no risk to students, staff or visitors as a result of the work. Affected areas will remain fenced off and only accessible by approved project team members.

Contractors undertaking the work will enter and leave the school from a designated entry point on Crabbes Creek Road and will be timed to minimise disruption to Crabbes Creek Public School students, staff and visitors.

Thank you for your cooperation during this important work.

Crabbes Creek Public School Community Information Session

A community information session about the work planned at Crabbes Creek Public School will be held at Crabbes Creek Hall for the school community and Crabbes Creek Village between 3.30pm and 5.30pm on Thursday August 11.

Contact us

If you have any concerns about this project, you can contact School Infrastructure NSW during business hours on 1300 482 651 or email schoolinfrastructure@det.nsw.edu.au. In an emergency, call triple zero (000).

We are here to make sure that work is completed safely and efficiently, and we will minimise impacts on the community at every opportunity. Thank you for your patience while we undertake this important work.
