

An example of flexible a learning space

Wardell Public School

Community Information Session | 16 August 2023

August 2023

Dear parents and carers

A project is underway to rebuild Wardell Public School after it was damaged by floods in early 2022. The project will deliver new modern and flexible learning environments and core facilities that will support the long term needs of the local community. Students will continue learning from the temporary demountable classrooms at the Wardell Public School site while the school is being built.

Current Status

- The project has completed the master planning and is currently in the concept planning phase.
- The Project Reference Group (PRG) which includes the Principal, DEL, and school representative, are meeting regularly to discuss the design process.

Next Steps

- Hold an information session so that the school community can review the plans.

Information Session Details:

Date: 16 August 2023

Time: Between 3:30pm and 5:30pm

Location: Wardell Public School Library

School Infrastructure NSW (SINSW) will continue to keep the community up to date with project updates, works notifications and information sessions, at each critical phase of the development.
