

# Murwillumbah East Public School

Works notification | 1 March 2023

Dear staff and parents/ carers,

Upcoming maintenance to replace the electrical board in the basement area of the wet weather multi-purpose space at Murwillumbah East Public School will require working with asbestos containing material.

The area is safe at present as it is inaccessible to students. The electrical board is being replaced as it has experienced ongoing issues since flooding in early 2022.

The area will be remediated in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

**The material is scheduled to be removed as part of the electrical board replacement on Saturday 4 March 2023.**

Testing will be completed to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff. We will keep you informed if further material is found which requires removal.

Thank you for your cooperation during this important work.
